The winner of the 9th Student Literary Competition

The jury, consisting of Dr. Łukasz Borowiec and Prof. Urszula Niewiadomska-Flis, decided to award first prize to the short story “Labour.” All the contest participants have demonstrated exceptional literary skills, but the winning text's uniqueness results from its carefully crafted narrative, in which details are built upon each other to create a dense atmosphere of imminent danger. In effect, the awarded text makes a truly memorable read. We do hope this venture into the world of short story writing is going to be continued.

The author of the short story is **Ms Wiktoria Jajko**, a student of the 3rd year BA studies.
